

Stormwater Management Plan

The Stormwater Management Plan is created to help reduce the discharge of pollutants in stormwater runoff within regulated areas of Westwood, Kansas.

The Stormwater Management Plan document outlines stormwater program activities, monitoring requirements, reporting requirements, and responsible parties for implementing this work.

Any questions or comments regarding the City's Stormwater Management Plan can be directed to Public Works Director John Sullivan at (913) 432-1550 or john.sullivan [at] westwoodks.org (by email).
